McIntire Not Yet Found-A Thorough Search Now Being Made.

The readers of the DEMOCRAT will remem ber the account we gave two weeks ago of a man named Alonzo McIntire being lest in the mountains somewhere in the headwaters of Hamilton Creek, in the Forks of the Santiam, and will be surprised to hear that no trace of him has yet been found, although a strict search has been made. A short distance below where he separated with Williams a doe was found killed, with a bullet hole through her, and still farther down the searchers found a large buck which had been killed several days before. It had been shet in the head slightly with a shot gun and was terribly bruised on one zide. The bruises were not caused by a fight with another deer, for the hair was not raked off, and the skin was not torn, and it is thought by some that McIntire had had a battle with him. As McIntire carried a double barreled gun, one barrel a rifle and one for shot, there is no doubt that he killed both deer. Mr. MoIntire was a member of the Masonic order, and we understand the members of that No. 4, I. O. O.
